

A New Workstation

Item	Picture	Reason for Selection
Desk		This desk will be a great addition to our workspace. It is relatively small and still has enough storage space to fit in our basement for now. Although, there will be more floating shelves on top for extra storage. Moreover, this desk is adjustable, so you can adjust it to different heights, and stand or sit while working. It helps get through to what different people like while also improving ergonomics and one's posture and daily exercise.
Chair		This chair is made for office workers reaching their maximum efficiency during work hours. It will be a great addition to our workplace as it is comfy yet practical. The curves and back are ergonomic features that allow for greater posture and less muscle aches after long and hard work hours. It makes working much more enjoyable for all of us.
Input A		This mouse is specialized in satisfying ergonomics when working on your computer for a much longer time. It helps you ease the pressure on your wrist. This can possibly stop existing pain or any future strain from happening. In our workplace, people such as the project manager will spend a lot of time typing or clicking on the computer, which is when this will come in handy.

Input B		<p>Ergonomic keyboards will definitely come in handy in our workplace environment. Ergonomic keyboards like this one are designed to minimize muscle strain and help the user overcome fatigue. The split design allows for the user to have an adjustable angle while also having a place to rest your wrists while typing. This keyboard will help the user type faster and more efficiently long term.</p>
Output A		<p>A good monitor is a necessary component in several small business workplaces. It will help our employees with everyday computing tasks in our office. Moreover, this monitor has a very high resolution which will speed up our work and</p>
Output B		<p>Today, headphones are a priority in almost every kind of workplace, especially ours. These headphones are a sleek design allowing for it to be lightweight and also soundproof to others around you. They will give you a sense of privacy and remove any unnecessary background noise. They are a comfortable design that can reduce long term ear fatigue too.</p>
